About Us

Pioneer Chemical Industries is a leading manufacturer of high-quality adhesives, serving industries for over a decade. With more than 10 years of experience, we specialize in producing strong, reliable, and innovative adhesive solutions for various applications.

Our commitment to quality, durability, and innovation has made us a trusted name in the industry. We use cutting-edge technology and premium raw materials to ensure our adhesives meet the highest standards of performance.

At Pioneer Chemical Industries, customer satisfaction is our top priority. We work closely with our clients to understand their specific requirements and deliver customized adhesive solutions that enhance efficiency and productivity. As we continue to grow, we remain dedicated to research, innovation, and sustainable manufacturing practices, ensuring that our products not only perform exceptionally but also contribute to a greener future.

Vision

To be a global leader in adhesive solutions through innovation, quality, and sustainability.

Mission

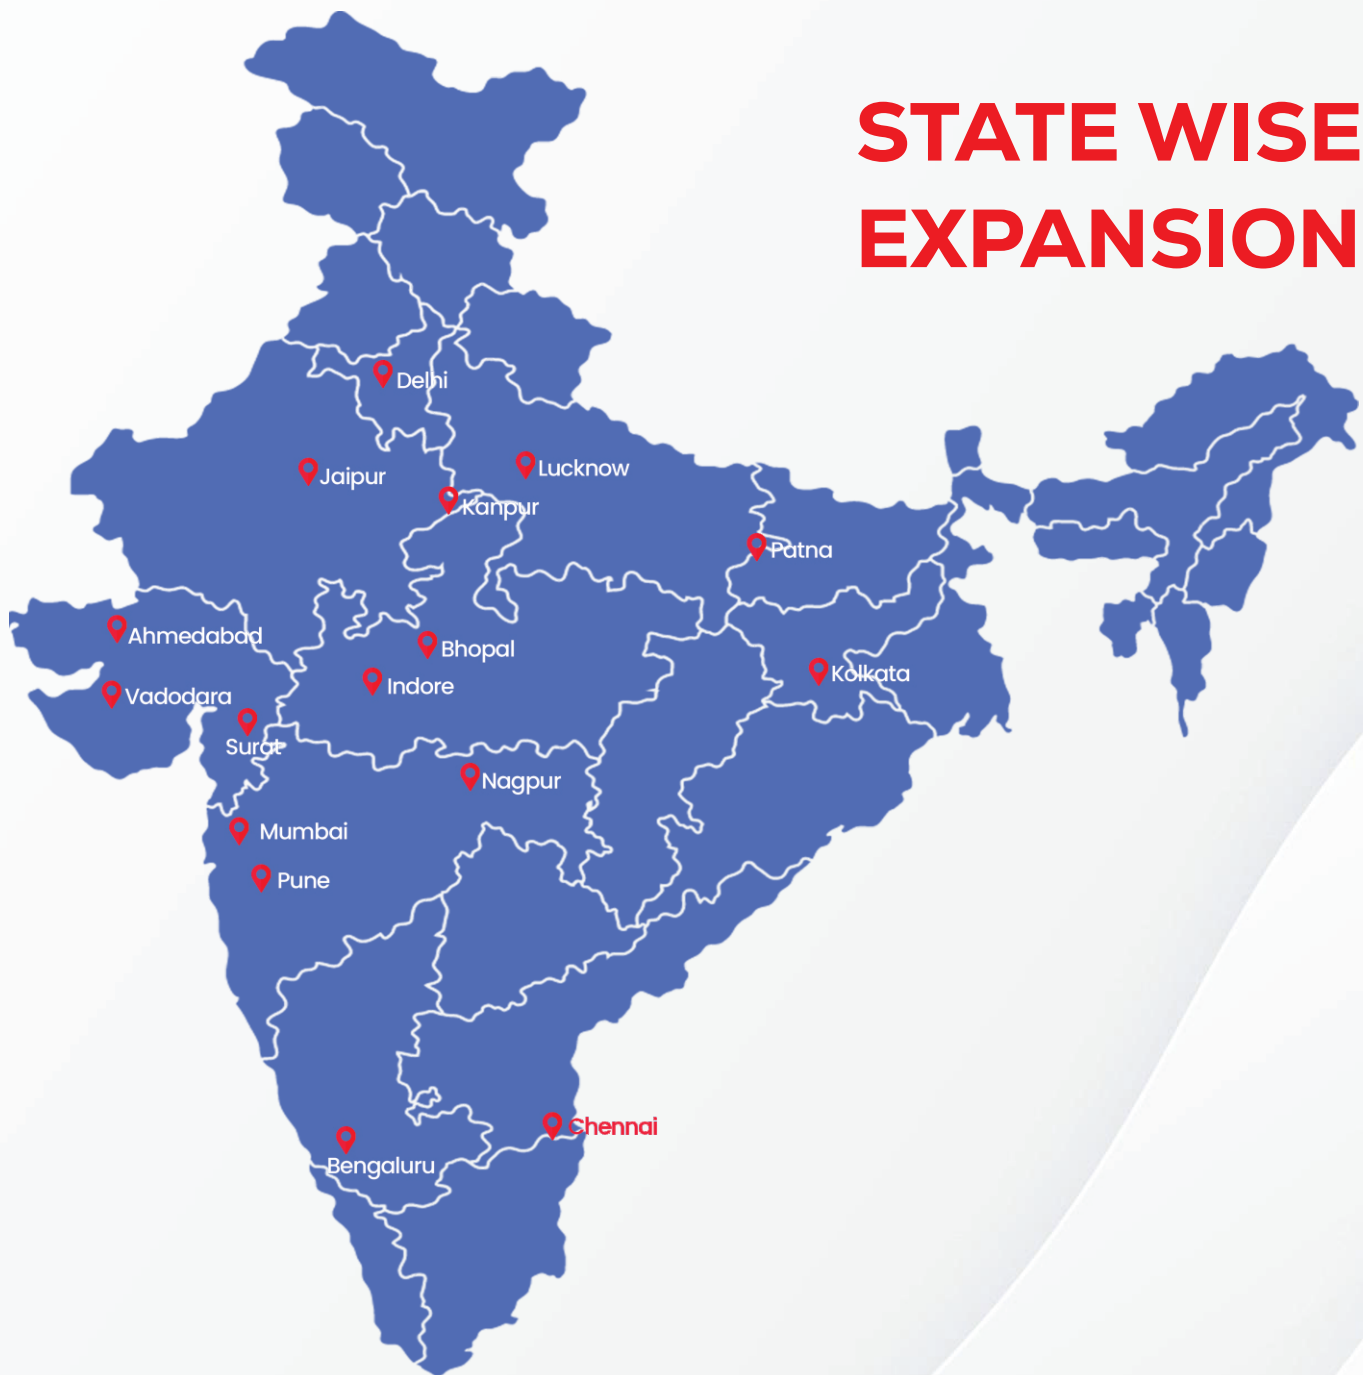

To manufacture high-performance adhesives that enhance durability, efficiency, and environmental responsibility.

Core Values

- ✓ Quality – Commitment to superior products and performance
- ✓ Innovation – Continuous research and technological advancements

STATE WISE EXPANSION

Pioneer Chemical Industries is steadily expanding its presence across various states, ensuring our high-performance adhesives are accessible to industries nationwide. By establishing strong distribution networks and partnerships, we aim to deliver quality solutions with prompt service in every region. Our strategic growth plan focuses on reaching key industrial hubs, empowering businesses with reliable and innovative adhesive solutions.

KWALITY[®] 777

Non Whitening Bond

Kwality 777 Glue is high strength adhesive that bonds effectively with Aluminium Channel Letter, Clear Acrylic & color Acrylic letters, Flex Signages, Wood & MDF, and Various other surfaces, its non whitening formula ensures a clean and professional finish.

KWALITY[®] 777

Non Whitening Bond

01

Aluminium Channel Letters

Kwality 777 Glue is a high-strength adhesive used to bond aluminum channel letters securely.

02

Acrylic

Kwality 777 Glue is a high-strength adhesive formulated for securely bonding acrylic without whitening.

03

Wood

Kwality 777 Glue is a high-strength adhesive formulated for securely bonding wood with a clear, durable finish.

04

Flex

Kwality 777 Glue is a high-strength adhesive formulated for securely bonding flex with a strong and durable hold.

502 SUPER GLUE

Kwaliti Cyanoacrylate adhesives

Kwaliti 502 Super Glue (Cyanoacrylate Adhesive) is a fast-bonding, high-strength adhesive formulated for instant and durable bonding of various materials, including Leather, PVC, Plastic, Rubber & Metal. Its quick-drying formula ensures a secure hold within seconds, making it ideal for household repairs, woodworking, and industrial applications

KWALITI WOOD FILLER

Instant Wood Filler

Kwaliti Instant Wood Filler is a high-performance wood filler specially formulated to fill cracks, gaps, and imperfections in wood surfaces. When mixed with sawdust, it creates a natural-looking finish that seamlessly blends with the surrounding wood. Ideal for furniture repairs, carpentry projects, and woodworking applications, this filler ensures strong adhesion, quick drying, and a smooth, sandable surface.

MAX BOND

Cyanoacrylate adhesive

Max Bond Cyanoacrylate Adhesive is a fast-bonding, high-strength adhesive formulated for instant and durable bonding of various materials, including Flex, Rubber, Plastic, Sunboard, Sunpac, Marble and Ceramic. Its quick-drying formula ensures a strong and reliable bond within seconds, making it ideal for industrial, household, and DIY applications.

FLEX FAST 10g, 12g, 15g, 18g

Instant Adhesive

Flex Fast Cyanoacrylate Adhesive is a fast-bonding, high-strength adhesive formulated for instant and durable bonding of various materials, including Flex, wood, rubber, plastic, Sunboard, Sunpac Marble and ceramics. Its quick-drying formula ensures a strong and reliable bond within seconds, making it ideal for industrial, household, and DIY applications.

KWALITY HIGH VISCOSITY GEL

Rapid Cure Bonding Adhesive

Kwality HV Gel (50 g) is a high-viscosity cyanoacrylate adhesive specially formulated for strong and precise bonding. Its thick gel consistency prevents dripping, making it ideal for vertical applications and gap-filling on porous and uneven surfaces. Suitable for Acrylic, wood, rubber, plastic, metal, and ceramics, it offers a fast-curing, durable, and impact-resistant bond.

KWALITY HIGH VISCOSITY GEL

Rapid Cure Bonding Adhesive

Kwality HV Gel (100 g) is a high-viscosity cyanoacrylate adhesive specially formulated for strong and precise bonding. Its thick gel consistency prevents dripping, making it ideal for vertical applications and gap-filling on porous and uneven surfaces. Suitable for Acrylic, wood, rubber, plastic, metal, and ceramics, it offers a fast-curing, durable, and impact-resistant bond.

KWALITY SPRAY ACTIVATOR

Cyanoacrylate adhesive

Kwality Spray Activator for Cyanoacrylate Adhesive (50 ml) is a fast-drying accelerator that enhances the curing speed of cyanoacrylate adhesives. It ensures instant bonding, reduces blooming, and improves adhesion on materials like Acrylic, wood, plastic, rubber, and metal. Perfect for woodworking, repairs, and industrial applications, this activator increases efficiency by minimizing waiting time and providing a strong, reliable bond.
